## DETAILED ACTION

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 41-43 are rejected under 35 U.S.C. 103(a) as being unpatentable over Marthinsson(5,673,053) in view of Dilworth(GB 2,326,002).

Claims 41 and 43, figure 1 of Marthinsson discloses a circular metallic ring(8) and a cable(5). While Marthinsson discloses the cable connected to an antenna, it is not an antenna with two conductive sheets. Figure 1 of Dilworth discloses two sheets(22 & 24) connected to a coaxial cable(36) for the remote reading of a meter(abstract).

Claim 42, air, which is a dielectric insulator, is between the two sheets(22 & 24) disclosed in figure 1 of Dilworth.

It would have been obvious to one of ordinary skill in the art at the time of the invention to use the antenna element disclosed in Dilworth with the attachment ring disclosed in Marthinsson for reading a meter as disclosed in Dilworth.

### ***Allowable Subject Matter***

3. Claims 29-40, 44-47 and 63-65 are allowed.

4. The following is a statement of reasons for the indication of allowable subject matter. The following limitations are primarily responsible for distinguishing the above claims over the prior art.

Regarding claims 29-40 and 44-47, the limitations concerning the register body being sandwiched between the two conductive sheets; and regarding claims 63-65, the two switches as recited.

5. Applicant's election without traverse of claims 29-47 and 63-65 in Paper No. 6 is acknowledged. The response to this office action should cancel the non elected claims.
